I AM TEE

T-shirts are the equivalent of a blank canvas for your IDEA, your brand message, your piece of art or any other kind of expression.

T-shirts are an important form of SELF-EXPRESSION, enabling you to highlight your personality and to proclaim YOUR MESSAGE to the world.

T-SHIRTS CAN BE PERCEIVED AS A LITTLE THING. WHAT IS A T-SHIRT? A MINIMAL ITEM OF CLOTHING...

BUT, AT B&C, WE ARE CONSCIOUS IT CAN MEAN A LOT WHEN IT SUPPORTS A MESSAGE, YOUR MESSAGE.

FOR THAT REASON, THE B&C T-SHIRT FACTORY IS DESIGNED TO BRING YOUR MESSAGE TO LIFE. IS IT FOR A CAUSE? A BUSINESS? A QUOTE? A PERSONAL MESSAGE...?

WE HAVE YOUR FAVOURITE T-SHIRT TO PROCLAIM **WHAT YOU WANT AND WHO YOU ARE.**

Is it a fun message?
An "I love..." message?
A group message?
A good cause message?
A cultural message?
A commercial message?
Claim it with a TOP QUALITY T-SHIRTS, your favourite B&C T-shirt.

The I'm Tees are inspired by your LIFESTYLE and created to provide high quality SURFACE FOR PRINTING. To support your beloved messages.

colour magnetism

Colour Magnetism

Certain colours are said to change the way you feel. Green, for instance, can make people hungry – which might explain why everyone loves to picnic in the park.

And if you wear a mood ring, it tells the world exactly how you feel – sea green signifies relaxation, dark blue implies passion, pink that you are inspired or orange optimistic.

By the way, if you find a red feather, it means you have good fortune.

So we wanted to find out what happens when you throw pigments of colour in the water.

Look at that. Purely magnetic, right?

With the **extensive colour offer of the B&C T-shirts**, select your coolest colour and provide maximum attractiveness to your message.

EASY BRANDING SOLUTION TO PERFECT YOUR CUSTOMISATION

The 18 B&C favourite T-shirts (Organic Inspire, Triblend, Sublimation) have no brand label located in the collar and, to make your life easier, a size chip only.

To optimise efficiency when sorting your T-shirts, we differentiated men/unisex and women styles. For men and unisex styles, size chips have a black background when for women fits they have a white background.

This Easy branding solution allows you to complete the customisation of your T-shirt. With B&C No Label Tees, the UNIQUE and fully personalised T-shirt line you are dreaming of is already waiting for you.

To enable you to follow all EU regulations, the composition label (complying with mandatory information and EU languages rules) is located on the left side seam of the style.

FABRICS & PRINTABILITY EXCELLENCE

In order to give you the best support for your campaigns, B&C offers you a wide range of 12 different fabrics. Easy to print, comfortable to wear, soft to touch, yet durable, those are the main qualities of all those B&C fabrics. Our B&C unique fabrics will inspire you to be even more creative in your communication and to offer something different.

The B&C Collection, the best choice to support your brand, creations, actions.

QUALITY IS NOT A PRIVILEGE, IT'S AN ATTITUDE

Our passion for quality knows no bounds, it is only matched by our drive to deliver the most inspiring contemporary collection for the promotional market. For us, every single detail needs to be absolutely perfect – from the colour and cut to the threads used to make the T-shirt itself.

MEET YOUR FAVOURITE FABRIC

Anyone who has ever owned a T-shirt has had a favourite one that has stood out as the best shirt they've ever owned. It made them feel better, smarter and more at ease when they wore it. But what made it so fantastic? The secret is in the fabric. All 54 B&C Collection T-shirts are made of RING-SPUN cotton, which is softer and smoother, both inside and out.

OPEN-ENDED YARN

With fewer fibres than ring-spun cotton, carded fibres are blown together, resulting in a loosely bound, thicker yarn. Open-ended yarns often result in fabric with a rough hand.

RING-SPUN YARN

The finer fibres are tightly twisted together, which results in a stronger, cable-like yarn. Ring-spun yarns ultimately yield a smoother, more durable fabric.

All our T-shirts use pre-shrunk fabric, because we know you want your favourite T-shirt to keep its original shape and to last. All our T-shirts are dyed following a strongly controlled process, to ensure colour fastness, because you don't want your favourite T-shirt to fade out.

All our fabrics are carefully chosen. They must be durable, comfortable, soft and with premium printability. To ensure this premium quality level, we run Quality Controls on a daily basis, directly managed by the B&C team in the factories, helped by the fact that we based one of our offices in Asia.

FIT AND STYLE

Are you looking for the best T-shirt for your message/brand? Relaxed and comfortable, always soft and emotional, we have a large selection of T-shirts, tank tops, styles and cuts. We always carefully balance the elements to find the right combination of weight, softness, price and fit, to support the expression of your creativity.

PERFECT DECORATION MEANS GREAT VISIBILITY

We take great care in the choice of all of our fabrics. Not only must they complement the styling of each garment and guarantee the highest level of comfort to the wearer, they must also deliver the highest QUALITY results in DECORATION.

We TEST all our fabrics with various decoration techniques so you can be confident that whenever you choose a B&C T-shirt, you will have the perfect canvas for your brand or message.

All B&C Collection T-shirts are made of ring-spun cotton, which is softer and smoother, both inside and out.
